

IVX 128

All-In-One Refurbished Digital Phone System

IVX 128, the All-In-One Digital Phone System, is easy to install, easy to understand and easy to use. All of IVX 128's outstanding features are designed and built in from the start. So you get the best communications at the lowest possible cost.

**"Everything built - in"
means everything built - in.**

16-port Voice Mail, Standard

16 port (simultaneously available channels of voice mail, hundreds of mailboxes and up to 140 hours of high quality voice message storage. You also get: Quick groups, for quickly sending a message to multiple recipients; and quick Moves, to simply moving a voice mail message from your mail box to another.

Enhanced Caller ID

See at a glance who's calling or who's waiting. IVX 128 stores caller ID information when somebody leaves you a voice message, and lets you return the call by just pressing a key during playback of a message.

Automated Call Distributor

The automated call distributor (ACD) another IVX 128 feature - enhances your customer service by intelligently routing calls to departments, where a caller can either immediately reach someone or remain on hold until the next person is available.

Scalability

Designed to support 84 Digital Feature Phones and up to 66 phone lines. Supports T1 broadband lines. All of this makes IVX 128 a system with a truly cost - effective growth path.

Advanced Automated Attendant,

with six levels and 100 branches. This unusual flexibility makes it easy to set up caller-friendly auto-answering.

Live Call Screening and Recording

Just press the RECORD key and the IVX 128 will record any call - even conference calls and personal reminders - for later playback, or move to others mailboxes. You can also Screen calls, just like you do with a home answering machine.

- Off premises message delivery
- Conference usability
- Dedicated overhead paging interface
- Pager notification
